WORK EXPERIENCE

Wyncoder 04/2018 – 06/2018
Wyncode Academy

- Designed and Developed Guide the Patient and Photogur. In both of these apps I used HTML, CSS, and Bootstrap. During the process of developing both of these apps I made sure we were following a great agile method.
- Photogur is a social media app to share photos and comment on photos. Here the link
<https://github.com/Greg2dmax/Family-and-Friends>
- Guide the Patient is an app that surgeon can use to give information to their patients on what to do before and after their surgeries. Another feature for Guide the Patient is a photo of the procedure so the patient knows what will be happening to them. Here the link
<https://github.com/Greg2dmax/Guide-the-patient>

Cafe 05/2016 –
Wow Factory, Coconut Creek, United States of America

I started off on floor and got promoted to cafe where I was responsible with taking orders, working at the bar, and making coffee all at the same time. As a experienced employee I was in charge of training new employees and taking care of responsibilities if a manager wasn't available.

EDUCATION

Full Stack Web Development and Computer Programming 04/2018 – 06/2018
Wyncode Academy, Miami, United States of America
